Select

Serie **Select**
Design Harri Korhonen 2001

Select is a balanced and comprehensive design furniture collection for hotels, lounges, conference rooms to auditoriums, dining rooms, cafeterias, classrooms etc. The distinct form and numerous material and leg options offer complete freedom to create different furnishings for interiors. The shape of Select gives a hint of comfort and Select fulfils that commitment. In this brochure we show some different set ups, but for a creative mind Select works as a perfect tool. That's why we've kept the shape simple and the versions versatile.
